COMPANY PROFILE

(BOSMFC) Lanjin Optoelectronics Co. Ltd was founded in 2005. Our factory is located in Dongguan city Dongcheng district, covering 2500 square meters. Our plant is rationally distributed, with complete supporting facilities and having international advanced ASM LED sorting machine. Our strong R&D team provide customized service according to customer's requirements.

Lanjin is specialized in producing light emitting diode, LED digital display, SMD LED and through-hole LED. The company has passed ISO9001:2015 international Quality management system certification, and now applying for ISO14001 Environmental management system certification. All of our products are Pb free.

Lanjin has absorbed the advanced manufacturing technology of Japan, Korea and Western Europe. With a high starting point, high quality market positioning, develop high temperature resistance & long life LED. Widely used in communication equipment, switching power supply, decorative lighting, multi-speaker, DVD and other electronics.

Lanjin is constantly introduce advanced equipment and advanced technology, strive to provide customers with satisfactory products and services, create excellent brand image.
